TERMS.

TERMS.—NET CASH.

Orders from abroad must be accompanied by remittance.

Cheques and Money Orders to be crossed " Barclays Bank."

BREAKAGE IN TRANSIT.—Great care is taken in packing, and in the event of breakage, claim must be made on the carriers.

CARRIAGE.—Country Orders of **£2 and over** (with the exception of Furniture) are sent carriage paid. Town Orders (with a few exceptions) are delivered free.

EMPTIES.—Cases, Wrappers and Packing are charged at cost prices, for which **full credit** is given if returned complete and carriage paid within one month. When returning empties, the Company should be advised. Where non-returnable Cases are used, half cost only is charged.

CLAIMS for shortage, etc., must be made within four days from date of delivery and the Invoice returned, or such claims cannot be considered.

INSPECTION of our Show Rooms invited, which contain the latest models in Surgical Instruments and Nursing Appliances, Hospital and Invalid Furniture, etc.

HIRING.—Invalid Furniture, Water Beds, Pillows, Air Cushions, etc., can be had on hire, and particular attention is directed to the condition that any such article may be purchased at Catalogue price, providing it is paid for in full during the first month—less any amounts paid in advance for hire. If paid after the first month an extra two weeks' hire will be charged.

SURGICAL APPLIANCES.—Competent Male and Female Assistants sent to any part of Town or Country, or can be seen at 83/85, MORTIMER STREET. Ladies should address their letters to the Manageress, Ladies' Department.

When ordering **IT IS NOT NECESSARY TO CUT THIS CATALOGUE,** as reference to Catalogue Numbers is quite sufficient to ensure accuracy.

Prices quoted are subject to fluctuations. Illustrations cannot be regarded as binding in detail owing to the constant revision and improvement in design, **etc.,** which is necessary for the maintenance of a thoroughly up-to-date standard.

Kindly note our London Premises are open Week Days from 8 a.m. to 8 p.m.

Sundays and Bank Holidays, 9 a.m. till 12 noon.

INVALID FURNITURE

THE "SURGMAN" ADJUSTABLE-ARM CHAIR READING DESKS.

B 8910 The **"Surgman"** Reading Desk is held by double-jointed arms fixed in telescopic posts, so that the book rests can be raised or lowered or tilted at any angle.

The arm, to which small circular table is attached, travels up and down the telescopic post, and may be swung round to any position, serving many useful purposes.

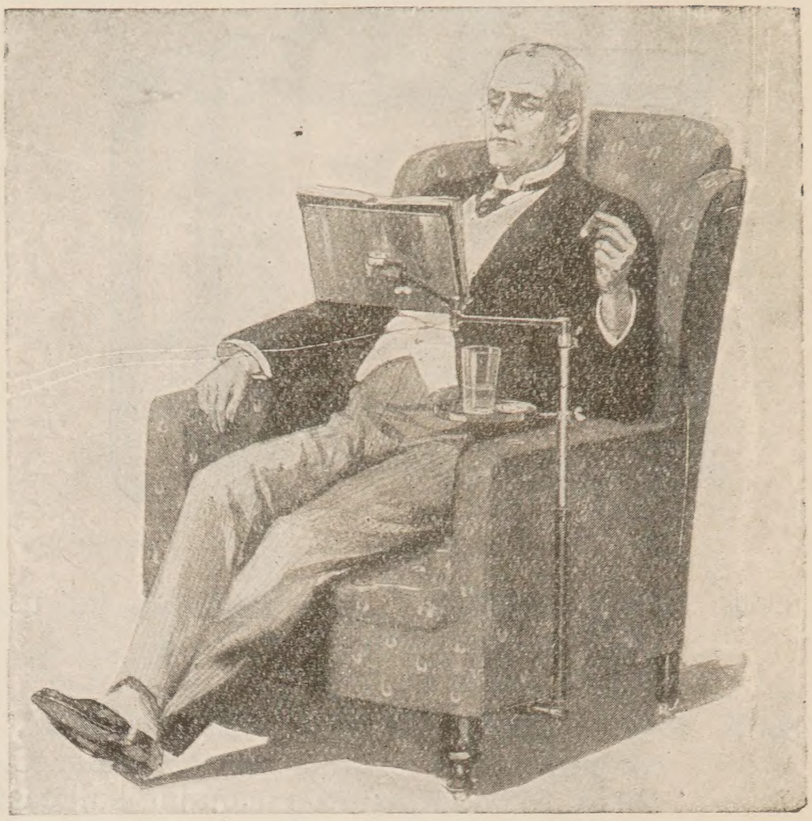
The Reading Desk measures 13 × 9 ins., and is made of walnut or mahogany finished wood.

The small circular table is 9 ins. in diameter, and polished to match the Reading Desk.

Prices :

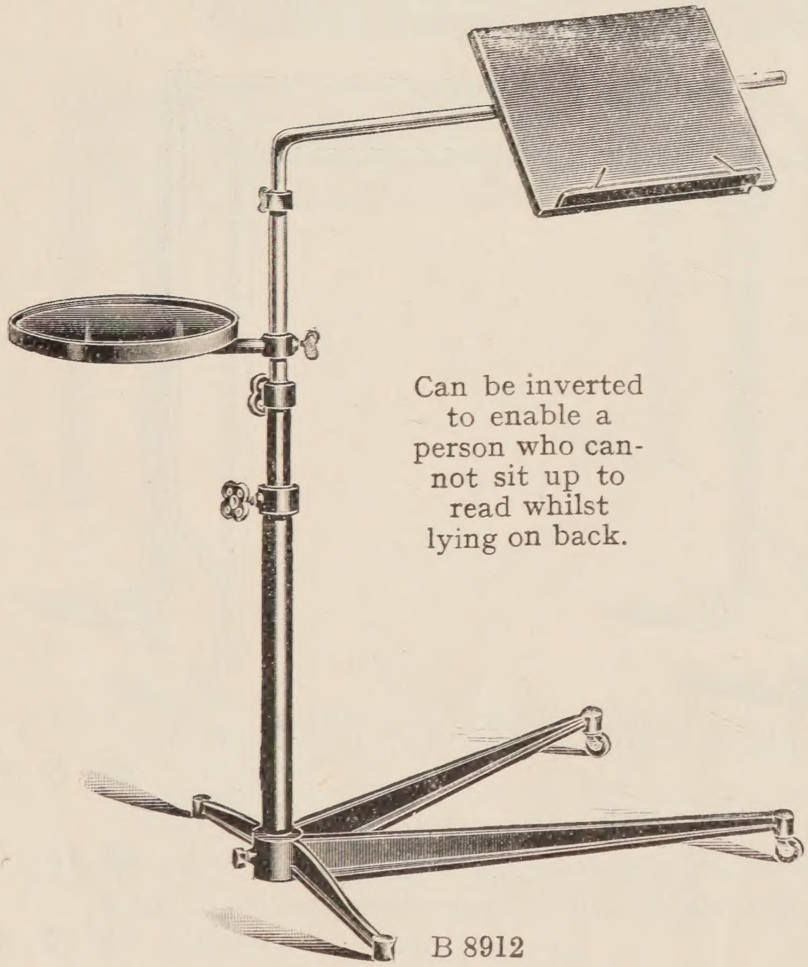
Without Circular Table	each	30/0
Complete	,,	37/6

Can be attached to any design or make of arm-chair without disturbing or damaging the upholstering.



B 8910

THE "ECLIPSE" READING STANDS



Can be inverted to enable a person who cannot sit up to read whilst lying on back.

B 8912

B 8912 The reading slope measures 13 × 9 ins., and can be raised to any height, and tilted to any angle required in a second.

The arm to which the circular-table (9 in. diam.) is attached travels up and down the telescopic post, and may be swung round to any position at will.

A reading slope can be supplied fitted with a very effective metal device which enables a book to be securely held in an inverted position, thus a person unable to sit up can read in comfort whilst lying on back.

Prices :

No. 1 (as illustrated, but without circular tray) ...	each	£2 0 0
No. 2 (as illustrated, complete with circular tray) ...	each	2 7 6
No. 3 (as illustrated, without circular tray but with inverted bookholder) ...	each	2 7 6

INVALID FURNITURE

THE "SERVIC" INVALID FOLDING CHAIRS WITH COIL AND LEAF SPRINGS.

Manufactured in two sizes: Full Adult, seat width 17 ins., depth 20 ins., seat to foot 13 ins. Small Adult, seat width 15 ins., depth 18 ins., seat to foot 12 ins. The smaller size is quite suitable for an adult person of slender stature. Vehicles that convey a feeling of security, self-satisfaction and returning vigour. Smoothness and luxurious movement that inspire confidence, encourage and assist patients to take advantage of outdoor air the year round. Resilient coil and flat-leaf finely tempered steel springs produce an effective resiliency of movement beneficial to both nurse and patient. Highly recommended in nervous cases.

Mounting or demounting curbs, etc.—All chairs are safely balanced for patient to assist by resting comfortably in full depth of seat; sitting forward produces excessive handle strain. Either chair wheels through a 28-inch doorway. Storage space folded:—" Servic " Model, 27 × 14 × 43 ins. Steerage and de Luxe Models, 27 × 16 ins.

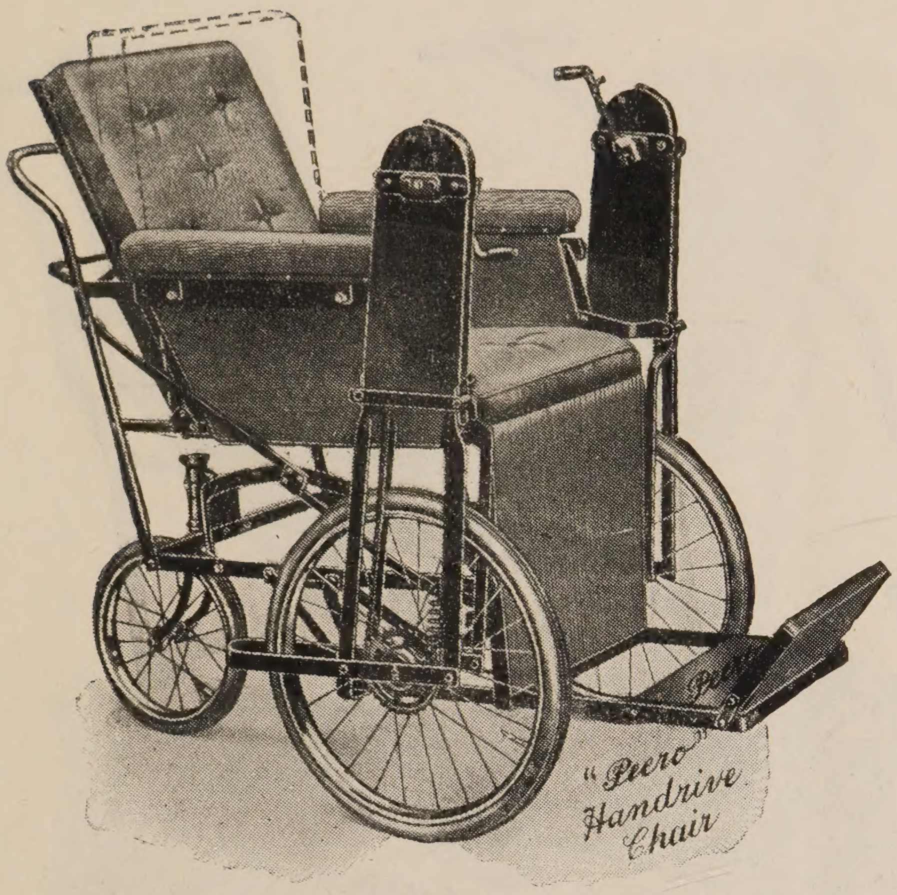
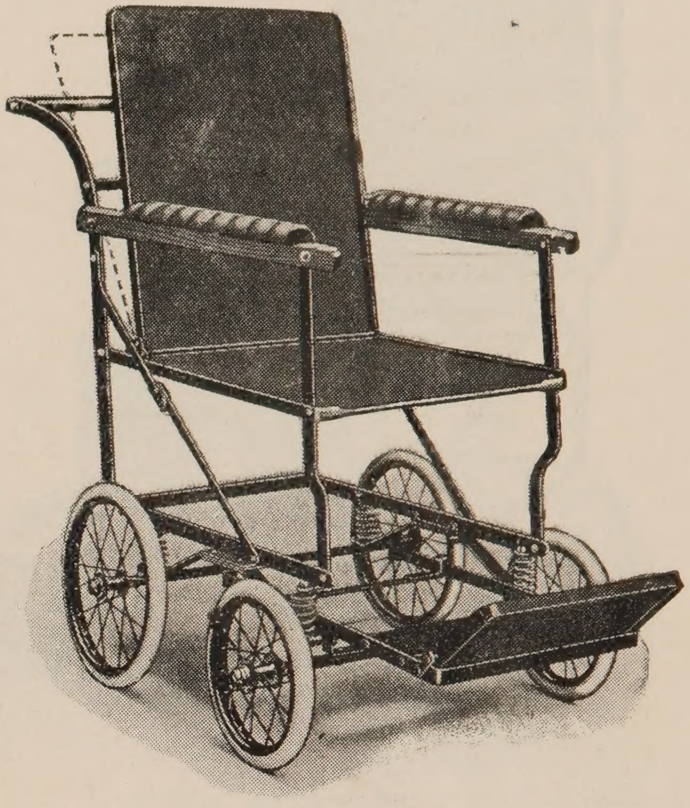
INVALID FURNITURE



B 8980



B 8981

B 8980 **THE "SERVIC" HAND DRIVE INVALID CHAIRS.** An invention *par excellence.* The application of an effective Hand Drive to a Folding Invalid Chair had been our ambition. Concentration has been continuous, and the reward—PATIENT'S INDEPENDENCE.

Bicycle freedom in Drive and Control, Steering operates automatically with applied Hand Power.

We have every confidence in the possibilities of this Invention.

In the Home, on Promenades, Garden Paths, etc., the chair turns in its own length (3 feet). Doorways are readily negotiated. Patient can progress at will without undue exertion, with a Road Speed 6 to 8 m.p.h. Passes a 27½ in. Doorway.

1½ in. Pneumatic Tyres and Ball-Bearings, less Upholstery	each	**£12 15 0**
With Upholstery (as illustrated)	„	**14 0 0**

Exceptional Storage Facility Space: 22 in. by 27 in. by 38 in.

B 8981 **THE "SERVIC" SUPERIOR INVALID CHAIRS.** Improved Ball-Bearing Model. Ball bearings are a desirable asset to ease of movement, particularly with heavy patients. For the purpose of obtaining light balance larger rear wheels have a noticeable effect. Complete equipment is recommended, but Cushion Upholstery is not essential. Brown Willesden Canvas with Eyeletted Adjustments is quite comfortable in use. Nickel Plated Hub Bicycle Wheels and Reliable 1-in. section Cushion Tyres.

Less Cushions (as illustrated)...	each	**£4 15 0**
Complete with Cushions		**6 0 0**

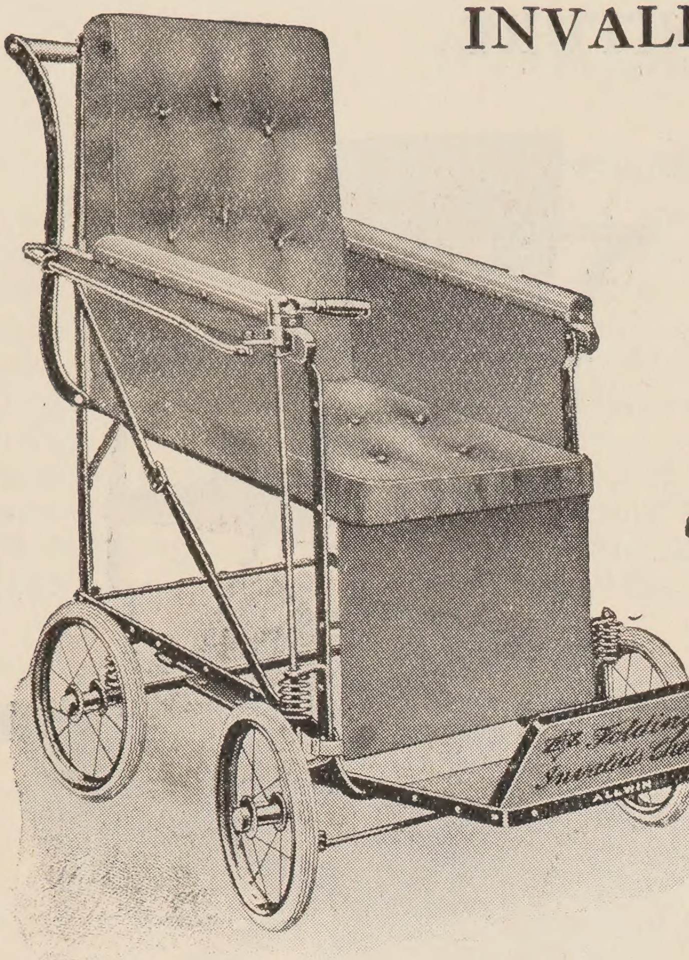
Extra as on "Servic."

Measurements: Seat, 20 in. by 17 in. Depth to Foot, 18 in. Leg Reach, 30 in. Storage, 28 in. by 17 in. by 38 in. Overall width, 27 in.

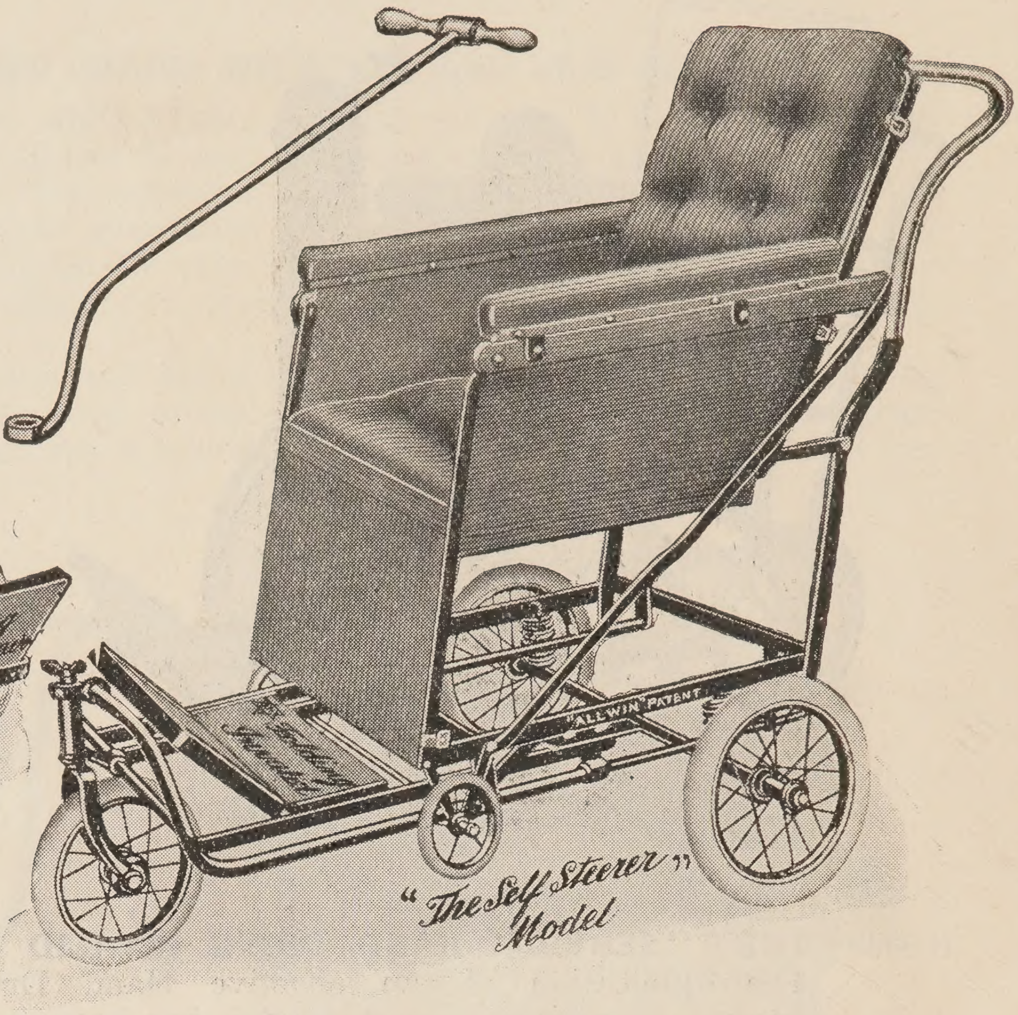
Storage has no comparison with the average Bath Chair.

The Invalid Superbe—a distinct advancement in Personal Independence.

INVALID FURNITURE



B 8982



B 8983

B 8982 **THE "SERVIC" STEERAGE MODEL FOLDING CHAIRS.** This chair is on exactly the same lines as the "Servic" Chair, on page 122, but with steerage gear fitted—nickelled rods and celluloid grips. Our illustration shows Chair with suede corduroy velvet upholstery cushions.

(Full adult size only) :

" Servic " Steerage Chair, 1 in. Cushion-tyre tangent wheels	each	£3 19 6
Complete with upholstery and 1 in. tyres (as illustrated)	„	5 4 6

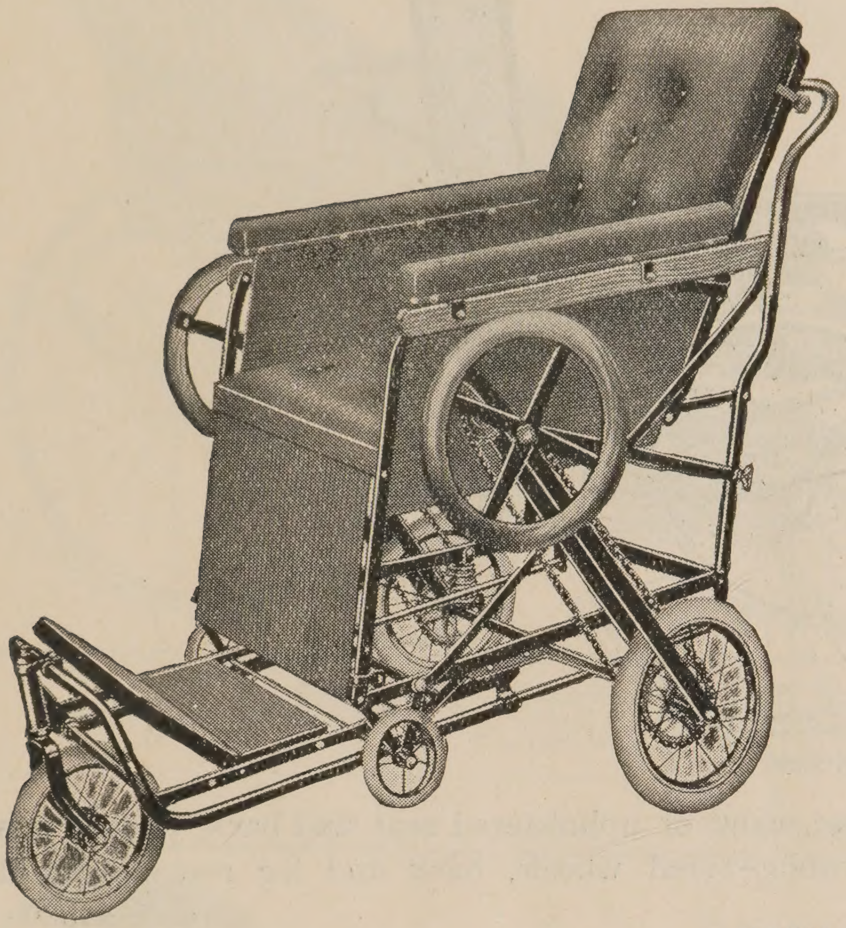
N.B.—Leg rest or apron can also be used on the Steerage Chair. Prices see "Servic" Chair.

B 8983 **THE "SERVIC" SELF-STEERAGE FOLDING CHAIRS.** A self-operating steerage chair with increased comfort for patient and reduced fatigue for attendant, most desirable with heavy person. Tilt wheels assist materially in passing kerbs and similar obstructions, can be used equally well without guide handle, which is readily detached. Leg rest extension offers ample length for straight jointed knee, or a leg rest can be attached set at various angles. Front passes under chair to facilitate entry. Patient can stand on footboard in perfect safety.

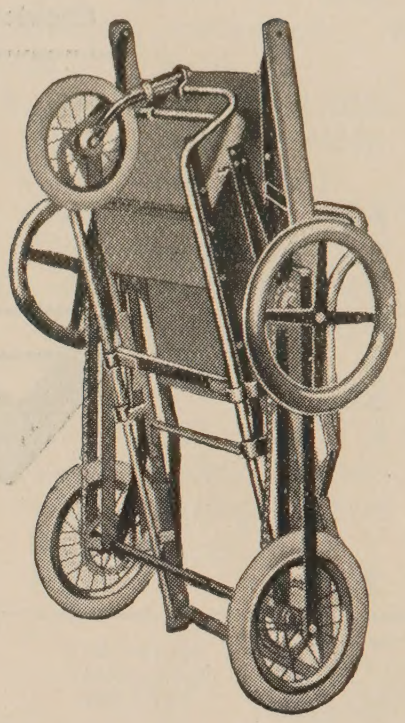
Complete with cushions, as illustrated	each	£6 2 6

Stowage inside car or on luggage grid presents no difficulty.

INVALID FURNITURE



B 8985



Folded for carrying on luggage grid of car or storage.

Foot gear closed for ingress or egress.

B 8985 **THE "SERVIC" HAND-PROPELLED (Self-Steerage) FOLDING CHAIRS.** Guarantees a sense of security and personal freedom of movement. An extremely comfortable steel frame folding chair with hand propelling mechanism. A vehicle that offers an invalid pronounced independence. Promenades, garden paths, etc., are readily negotiated. Patient can progress at will without undue exertion; operation being simple and chair under perfect steerage control. The chair also provides a self steerage for an attendant and tilt wheels assist considerably in mounting kerbs, etc. Foot part closes to prevent difficulty when entering or leaving and permits of an extra long leg length in use. Finish: Black Stove enamelled, hand rims polished walnut, tangent cushion tyre wheels.

THE "SERVIC" HAND-PROPELLED FOLDING CHAIRS, with 1 in. cushion-tyre tangent wheels, less cushions	each	**£8 8 0**
Ditto, complete with cushions, as illustrated	,,	**9 13 0**

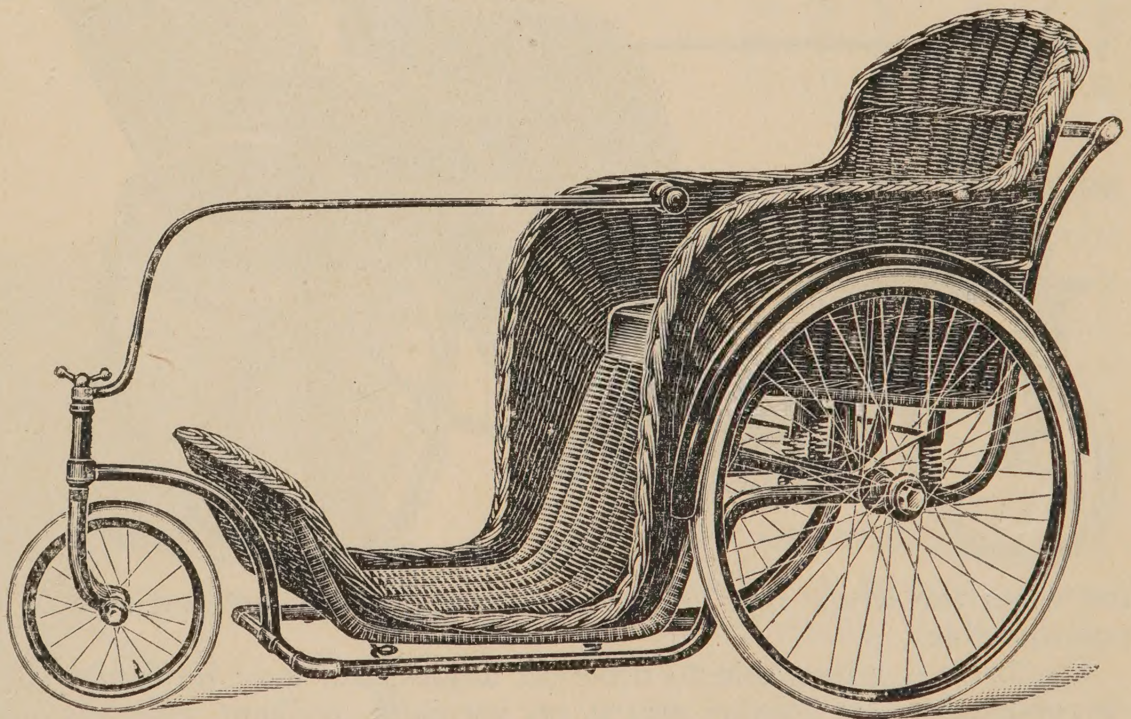
B 8993 **WICKER BATH CHAIRS,** of new design embodying all those qualities which go to make the perfect Invalid Carriage. The body, which is of pleasing appearance, is made from the finest selected willows, closely woven, ensuring its being strong yet supple. The undercarriage is made of weldless steel tube which gives enormous strength with lightness, and is fitted with our standard ball-bearing automatic steering head. The celluloid handle is attached direct to tubular extensions of the frame, thus transmitting the propelling effort direct to the axle instead of through the body and springs. The axle can be easily moved backward or forward to alter the balance of the chair to suit the particular requirements of the user. The body rests on special coil springs securely attached to the chassis, giving the utmost comfort. Guide rod, mudguards and cushion included.



B 8993

B 8995 **WICKER BATH CHAIRS,** with adjusting back and leg rest. Body specially well-made of selected willows, with exceptionally strong side and ample foot space with square toe. The leg rest is firmly hinged to seat and is also hinged at centre so as to make it collapsible. The support is secured to leg rest and the extreme end of leg rest is also supported by toe of carriage. When leg rest is not required, the bottom of the centre support can be moved towards toe when the whole rest fits into the shape of the leg and foot of the body—thus making the leg rest invisible.

The back is adjustable to different angles, and may be firmly secured in desired position. Body suspended by best leather straps on specially resilient steel cee springs. Ball-bearing automatic steering front. Adaptable guide rod included.

The leg rest can be made for one leg only (right or left) if so desired. Width inside seat, medium size, 17 ins, width inside seat, large size, 19 ins., extreme width outside wheel caps, medium size 28½ ins., extreme width outside wheel caps, large size, 30½ ins.

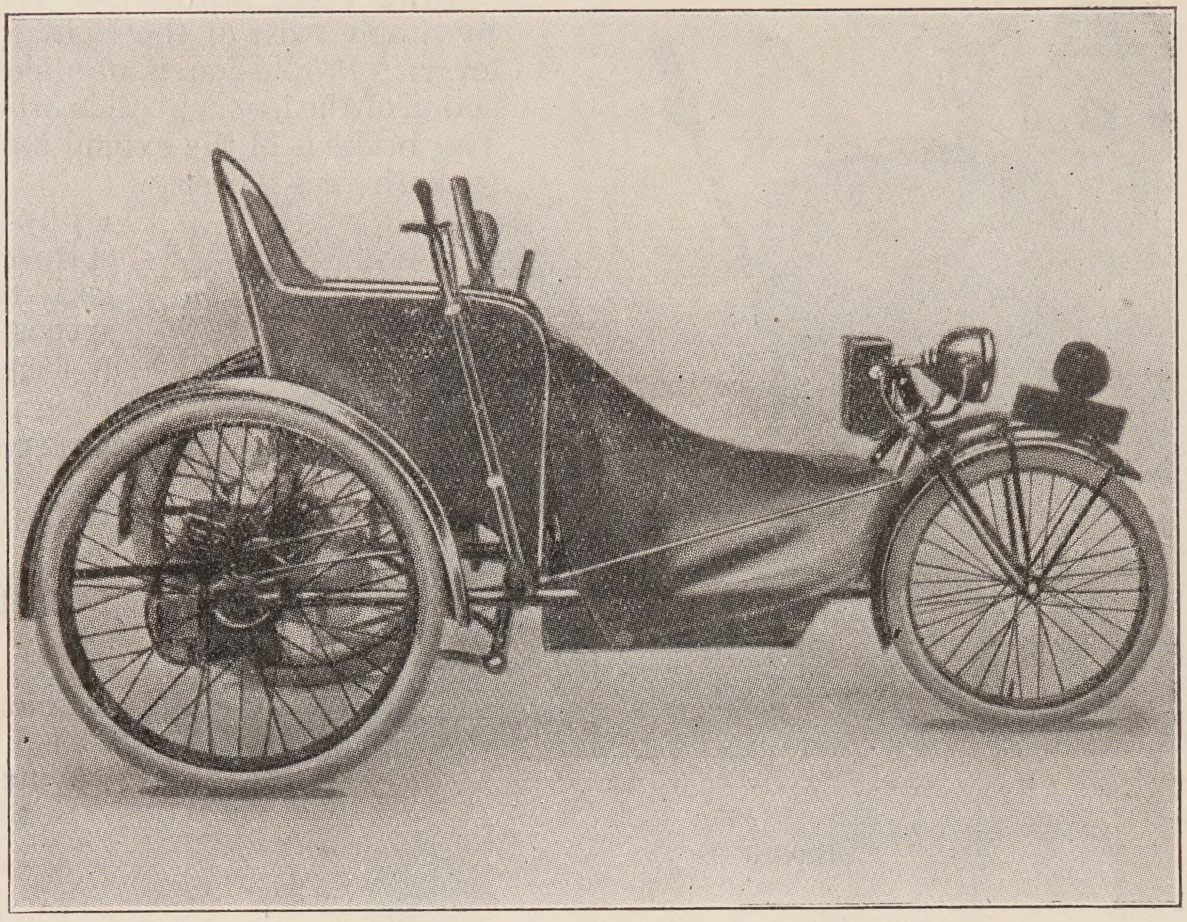
each **£30 0 0**

Ditto, with upholstered seat,
each **£32 10 0**

Ditto, best finish throughout,
each **£36 0 0**

Waterproof Apron
25/0 extra.

INVALID FURNITURE



B 9016

B 9016 **MOTOR TRICYCLES.** The specification includes the hand-propelling mechanism incorporated in the ordinary hand-tricycle, a 2-speed hand gear with automatic freewheel being recommended. A small 2-stroke engine, specially designed, with a self-contained single speed reduction gear takes the engine drive through the differential axle to the road wheels, all the gears, both hand and engine, being enclosed and run in an oil bath. There are no exposed working parts. No chains or belts.

Engine.—60 mm. bore, 60 mm. stroke, 2 stroke ; aluminium alloy piston ; roller-bearing crankshaft and big end ; flywheel magneto ; Villiers' 2-lever carburetter, Petroil lubrication.

Wheels.—20-in. by 1¾-in. front, 26-in. by 2-in. rear, Palmer tyres.

Petrol Tank.—Fitted under seat, 1 gallon capacity, sufficient for 80 miles run, can be filled without rider dismounting.

Wide Mudguards with deep side valances are fitted to side wheels.

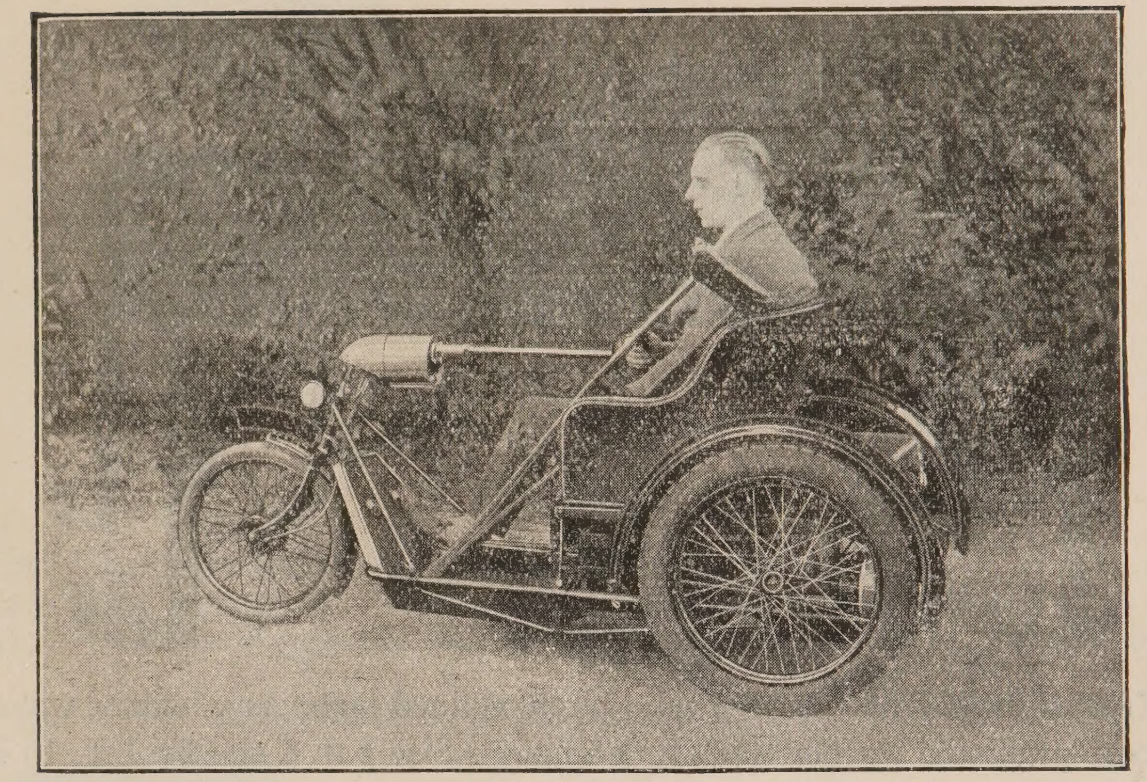
All Gears are of special steel alloy, heat treated.

Speed.—5-20 m.p.h.

Provision is made for instantly disconnecting the engine gears, thus facilitating hand propulsion of the machine as a means of exercise.

Complete as above specification. Fully equipped ... ... each	£60	0	0
Ditto, with clutch ... ... ,,	76	0	0

Lamp as illustrated is not included.



B 9017

B 9017 **ELECTRIC TRICYCLES.** This machine is completely self-starting, silent running, and the whole of the control, steering, braking, etc., is carried out by the easy operation of one handle only ; the driving unit is an Auto-Electric special light weight motion. Overall length is 7 ft. Width 2 ft. 7 ins.

WHEELS.—26 in. rear, 20 in. front, fitted with balloon tyres.

BATTERIES.—Specially constructed, volts 36, amperes 57 at 5 hour rate.

TRANSMISSION.—Single reduction " enveloping " type worm gear and differential.

SPEED.—8-10 m.p.h. on level—Higher Speed machines can be supplied.

DISTANCE ON ONE CHARGE.—40 miles on Standard Battery or 75 miles on extra large Batteries.

Comfortable seating, mounted on laminated C springs, and ease of control render this little carriage suitable for delicate and disabled people.

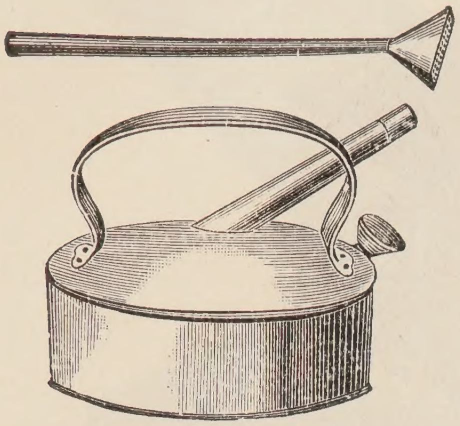
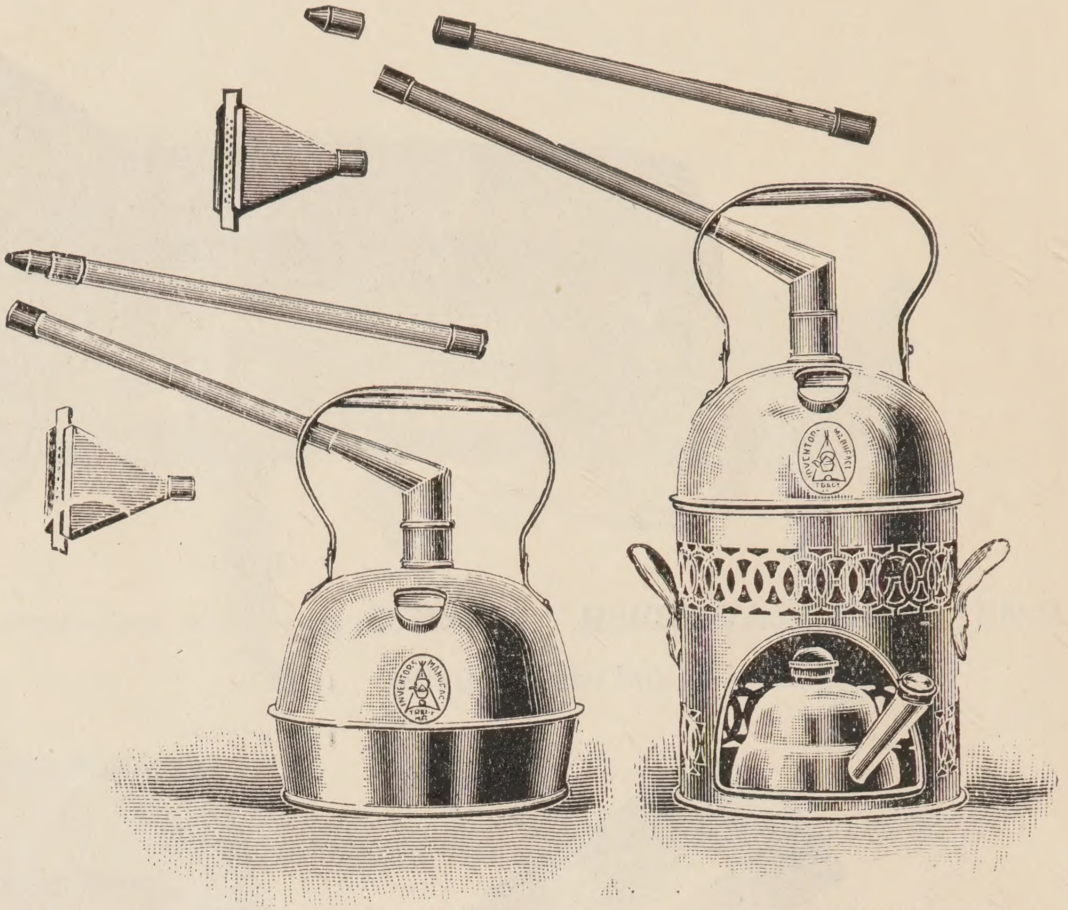
IMPROVED BRONCHITIS KETTLES



B 9018

		2 qts.	3 qts.
B 9018	Best Quality, each	**5/6**	**7/0**

For Tracheotomy Tents, please see page 146.



B 9019 B 9020

B 9019/20 These Bronchitis Kettles are strong and well finished articles, and with our recent improvements will be found to meet all requirements.

They are made in two forms: B 9019 is for use over the fire; and B 9020 is provided with a Methylated Spirit Lamp and Stand, so that it may be placed in any part of the room, or on a table by the bedside to enable the patient to receive the benefit of the Vapour when the fireplace is so far from the bed that a kettle placed on the fire would be of little service.

Both forms are fitted with jointed tubes and fall-down handles for portability. They are supplied with two end fittings—a Jet and a Spreader; the latter is most useful when medicated vapour is required, as it contains a small perforated tray, into which a layer of wool, flannel, or felt may be placed, saturated with any medicament that may be prescribed.

Price of Kettle for fire, B 9019, each **12/6**. Price of Kettle for fire with Stand and Lamp B 9020, **18/6** each.
